EXPERIENCE

Frontend developer for Laudo, Berlin (DE)

10/ 2020 - current

Laudo is a Berlin based design agency focusing on digital strategies and design.

- Developed the frontend of a 3d printing platform for the German army. This allows stakeholders across the organization to use the 3d printing facilities and share parts across all departments.
- Developed Laudo's startup heysports.io where users can find fitness and yoga studios to fit their needs. The SEO focussed site generates 100 organic visitors daily and serves as a proof of concept for our fundraising campaign.

Frontend developer for talentfinder, Berlin (DE)

10/ 2020 - current

Talentfinder is a matching making app for career events that makes talents and recruiters swipe right.

- Responsible for maintenance, and implementation of new features. Some highlights are listed below.
- Implemented localization for the app, allowing the team to reach millions of new customers across the world.
- Developed and conceptualized the paid job wall feature, which reaches more talents and generates additional revenue.
- Implemented a new design system that improves the UX of thousands of users and contributes to the app's annual growth.

Frontend developer and designer for DHI GRAS, Copenhagen (DK)

06/ 2018 - 09/ 2020

DHI GRAS specializes in satellite data processing for hydrology, water quality and environmental assessment.

- Designed and developed DHI GRAS' company website, and promotional videos.
- Developed over a dozen online data viewers, allowing clients to interact with the data in a more effective and engaging way.
- Developed and designed a platform that monitors crop types and farm management practices for the Danish agricultural ministry. This saves millions of Danish Krona and has won the Danish innovation award.

EDUCATION

BA Art & Technology, University of Aalborg (DK)

09/ 2013 - 06/ 2016

BA International Communication and Media, UoAS Utrecht (NL)

09/ 2008 - 06/ 2013
